PROFILE SUMMARY

Python Developer and Machine Learning enthusiast with hands-on experience in building backend applications and data-driven solutions using Python, Django, PostgreSQL, and machine learning libraries. Skilled in developing scalable web applications, performing data analysis, and applying Natural Language Processing (NLP) and Machine Learning techniques to solve real-world problems. Passionate about designing efficient software systems and intelligent applications.

TECHNICAL SKILLS

Programming: Python, Java
Web Development: HTML, CSS, Django, Django REST API
AI & Data Science: Machine Learning, Natural Language Processing (NLP), Data Analysis
Libraries: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn
Database: PostgreSQL
Core Concepts: Data Structures, Algorithms, Object-Oriented Programming

WORK EXPERIENCE

Python Developer & Machine Learning Intern – RubricEdge Solutions (Jul 2025 – Mar 2026)
• Developed backend web applications using Python and Django.
• Designed relational databases using PostgreSQL.
• Built data analysis pipelines using Pandas, NumPy, and Matplotlib.
• Applied Machine Learning and NLP techniques for data analysis tasks.
• Performed data preprocessing and exploratory data analysis on real-world datasets.

Artificial Intelligence Intern – Skolar (3 Months)
• Gained exposure to neural networks, supervised learning, and unsupervised learning algorithms.
• Studied Artificial Intelligence concepts and implemented basic AI models.

PROJECTS

Resume Generator – Django, HTML, CSS, PostgreSQL
• Built a web application to generate professional resumes using structured user input.
• Implemented backend logic using Django to manage resume data.
• Designed responsive resume templates using HTML and CSS.
• Stored and managed resume data using PostgreSQL.

OratorIQ – Communication Analysis System – Python, NLP, Machine Learning
• Developed a system to analyze speech and communication patterns.
• Applied NLP techniques to evaluate vocabulary usage and sentence clarity.
• Designed algorithms to assess communication effectiveness.

InternHub – Internship Management Platform – Django, Django REST API, PostgreSQL
• Developed a full-stack internship management system for students and mentors.
• Implemented role-based access and API-based task management.

EDUCATION

B.E. Computer Science & Engineering
VSB College of Engineering Technical Campus (2023 – 2027)
CGPA: 8.08

CERTIFICATIONS

• Programming in Java – NPTEL
• Python Programming – GUVI
• Artificial Intelligence – Skolar

LANGUAGES

Tamil (Native), English (Professional Working Proficiency)
